Deadline for manuscript  
submissions:

**15 June 2020**

### Message from the Guest Editors

Dear Colleagues,

The aim of the International Symposium on Structural Health Monitoring and Nondestructive Testing is to provide an overview of the latest breakthroughs in SHM and NDT and their interactions with various industrial sectors. SHM-NDT 2020 will be held in **Québec City, Canada on 14 and 15 of May 2020**. This joint Special Issue is expected to select excellent papers **in** and **out** SHM-NDT 2020 in the following topics, but not limited to:

- 1) Structural health monitoring;
- 2) NDT sensors, detectors and sources: ultrasound, acoustical emission, X-ray, thermography, eddy currents, EMAT etc;
- 3) Modeling and simulation;
- 4) Reliability, probability of detection;
- 5) Sensor data fusion;
- 6) Reconstruction techniques;
- 7) Defect detection & localization methods;
- 8) Signal and image processing.

All papers (**in** and **out** SHM-NDT 2020) must be submitted by the deadline **15 June 2020**. All selected and peer-reviewed papers will be organized as in a dedicated book with an ISBN number.
